ICS Adds Soft Armor Conditioning to NIJ Accreditation Scope

Brunswick, Ohio – The National Voluntary Laboratory Accreditation Program (NVLAP) has expanded the ICS Laboratories ISO 17025 scope of accreditation to include Section 5 of NIJ Standard 0101.06, Flexible Armor Conditioning Protocol.

The accreditation is in recognition of demonstrated technical competence and capability in the accelerated aging and wear conditioning protocols of NIJ 0101.06.

Accreditation for Soft Armor Conditioning is added to ICS's standing accreditation for Hard Armor Conditioning and Ballistic Body Armor Testing as granted in August of 2008.

The latest accreditation provides ICS clients a complete one-stop-shop for NIJ compliance Testing of both Hard and Soft Body Armor – inclusive of required conditioning.
