U.S. Army Contract Awarded To ICS

U.S. Army Contract Awarded To ICS - June 1, 2005

Brunswick, Ohio - ICS once again demonstrates superior competence and value in PPE testing in a newly awarded appointment from the U.S. Army. Through the appointment ICS will function as the Army's principle testing facility for all combat eye protector systems through the year 2007.

Contract responsibilities entail the testing and assessment of all functional aspects of combat eye protector systems inclusive of; ballistics protection, laser protection, flammability resistance and various optical performance attributes.
